#### ***Reasons for Allowance***

5. The following is an examiner's statement of reasons for allowance: In addition to applicants remarks filed 07/10/2006, the primary reasons for allowance are the inclusion of the following limitations in each of the independent claims directed towards a method (and corresponding wireless device and machine readable medium) related to message transaction updates and synchronization of a wireless device and server:

" combining the first message transaction update and the second message transaction update into a batch transaction update if the one or more message transactions have occurred and based on a set of batch processing parameters; and

the wireless device initiating synchronization with a server by automatically transmitting the batch transaction update to the server upon the first message transaction update and the second message transaction update being combined" (From claim 1, similar limitations in claims 19 and 27).

This subject matter is not found in the prior art nor is it obvious in view of the prior art.

Art Unit: 2155

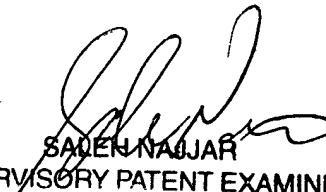

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
